

What is the family's favorite category?

:From the chart, we notice that

The favorite category of families is Animation, so if we want to buy a DVD to rent it to families, the best option is Animation, and then Family, and the .worst option for this category is music

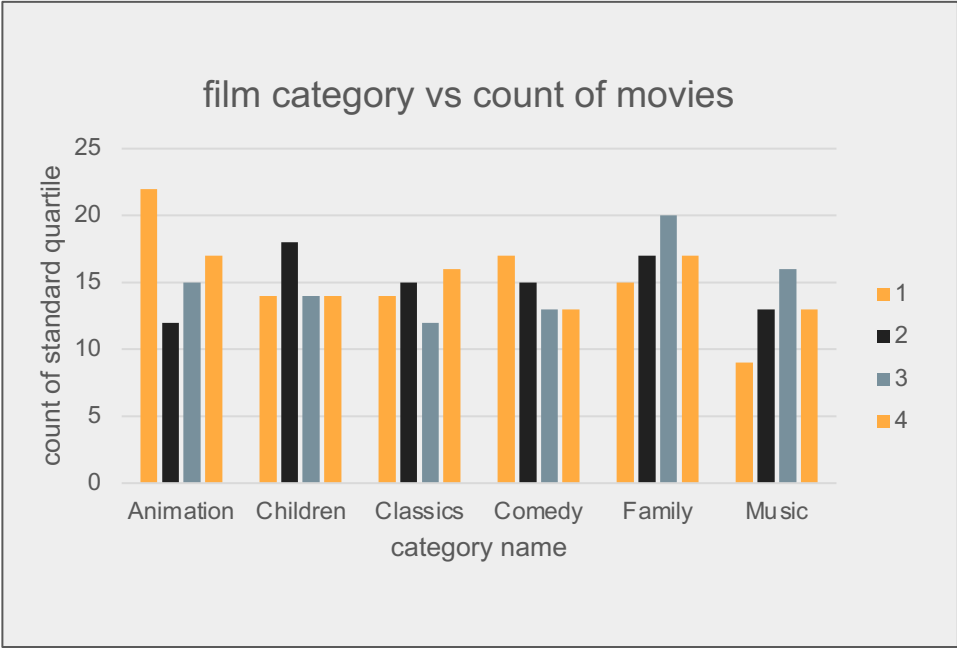

how the length of rental duration of these family-friendly movies compares to the duration that all movies are rented for.

From the chart we notice that:

Family and animation is the highest number of rented films, but family outperforms animation in the number of days, as it is 6 compared to animation, which is 3 days

provide a table with the family-friendly film category, each of the quartiles, and the corresponding count of movies within each combination of film category for each corresponding rental duration category.

From chart we note that:

- the animation is the most numerous of films, as the first quarter is the highest and contains 22 films, followed by the fourth quarter 17, then the third quarter 15, then the second quarter 12 which is the lowest
- and music is the lowest numerous of films, as the third quarter is the highest and contains 17 films, followed by the fourth quarter 13, then the second quarter 12, then the first quarter 9 which is the lowest

how the two stores compare in their count of rental orders during every month for all the years

From the chart we notice that:

- All stores reached the highest rental number in the month of 7 of 2005, but Store 2 got the highest rental number with a difference of 21
- The lowest number of rentals for all stores was in the month of 2 2006
- Also, Store 2 was the highest in total rentals for 2005 But in 2006, Store 1 had the highest number of rentals.
